EXPERIENCE

• Bluestock Fintech

Software Development Engineer Intern

Aug, 2025 – Oct, 2025

- Developed and integrated RESTful APIs using Node.js and Express.js for core application modules, enabling secure and efficient backend communication.
- Performed API testing and debugging using Postman, identifying and resolving backend issues to improve application reliability.
- Collaborated with the development team using Git and GitHub, managing version control, code reviews, and feature integration.
- Contributed to both frontend and backend development in an Agile environment, delivering features and bug fixes across the application.

• Aim Technologies, Kakinada

Web Developer – Intern

May, 2025 – July, 2025

- Developed responsive web interfaces using React.js and integrated backend APIs for dynamic data handling.
- Built reusable UI components, improving maintainability and user experience.
- Collaborated with developers to implement scalable frontend features and optimize application performance.

EDUCATION

• Aditya University, Surampalem, A.P

B.Tech - Computer Science and Engineering

2023 - 2027

CGPA: 9.65/10

• Sri Chaitanya Junior College, Tuni, A.P

Board of Intermediate Education, Andhra Pradesh

2021 - 2023

Marks: 975/1000

• Sreshtha Vidya Bhavan, Annavaram, A.P

Board of Secondary Education, Andhra Pradesh

2021

Marks: 588/600

PROJECTS

• LeadFlow CRM | MERN Stack | JWT Authentication

- Developed a full-stack CRM platform using the MERN stack to manage 100+ customer leads with secure role-based access.
- Built RESTful APIs using Node.js and Express.js for authentication, lead management, search, and filtering.
- Implemented JWT-based authentication, protected routes, and role-based authorization to secure user access.
- Designed responsive dashboards using React.js and Redux Toolkit, improving lead tracking and customer management workflows.
- **Tech:** React.js, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, REST APIs

• Real Estate Marketplace | MERN Stack

- Developed a full-stack real estate marketplace enabling users to browse, search, and manage property listings.
- Implemented secure JWT-based authentication and role-based access for buyers and sellers.
- Built RESTful APIs using Node.js and Express.js for property management, search, and filtering.
- Developed a responsive React.js interface with Redux Toolkit for efficient state management.
- **Tech:** React.js, Node.js, Express.js, MongoDB, JWT, Redux Toolkit, REST APIs

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Responsive Web Design

Programming Languages: Python, C++, Java, SQL

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Docker, Postman

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

CERTIFICATIONS

- NVIDIA Fundamentals of Deep Learning
- Full Stack Web Development Certification
- Docker Certification
- Basic SQL Certification – HackerRank

ACHIEVEMENTS

- Solved 400+ DSA problems across LeetCode and HackerRank with a maximum LeetCode rating of 1561.
- Earned 5-star HackerRank badges in Python, C, and Data Structures.
- Maintained a CGPA of 9.65/10, consistently ranking among the top students in the Computer Science department.
- Participated in Smart India Hackathon 2025, collaborating with a team to develop solutions for real-world challenges.

POSITIONS OF RESPONSIBILITY

• NSS - Club Member

- Coordinated social and technical events while collaborating with teams to execute activities and strengthen communication and leadership skills.
